The McCandless Building---The Star's New Home

Engraving by "The Paradise of the Pacific."

H. L. Kerr, Architect

The McCandless Building---THE STAR'S new home, is situated on the corner of King and Bethel streets, in the very heart of Honolulu. The magnificent building covers 40 feet on King street and runs along Bethel street a distance of 142 feet. The engraving shows the imposing appearance of this structure of four stories and a large, high and modern basement.

The building will be a popular one; the owners state that two-thirds of the entire structure has been rented. The top floor will be the home of the Commercial Club; this floor commands a superb view of Honolulu and approaches. The next two lower floors each contain 14 modern offices. The upper three floor will be served with an Otis passenger elevator.

The ground floor is divided into 6 stores; two are now occupied by the Post Office---one as a money order office; the other for the registry division. The store on the right of the main entrance is now occupied by THE STAR and is divided into a business office and editorial room. The largest part of the modern basement contains the STAR'S plant. Here has been installed the large, new Babcock newspaper press and all the newspaper and printing plant.

Just as soon as we have everything in order, we will issue a general invitation to our friends and patrons to visit our new home.

Mahuka Site Is Chosen

(Associated Press Cable to The Star.)
WASHINGTON, D. C., April 1.--The King-street site has been selected as the location for the Federal public building in Honolulu, provided that a new street will be opened from King street to Merchant.

This cable announces the victory of the Mahuka site property which is on the makai side of King street between the line of E. O. Hall & Son's property and the easterly side of Bishop street extended. This was the site recommended by H. A. Taylor, who represented the Treasury Department.

TWO DRAMATIC INCIDENTS AT KALAUPAPA

THE SIMPLE ELOQUENCE OF A SUFFERING WOMAN---THE DESPAIRING EARNESTNESS OF THOSE DIOMED BY DREAD LEPROSY RISES TO TOUCHING ELOQUENCE IN THE CREDULITY AND ANXIETY OF THEIR CRY FOR HELP.

There were two exceedingly dramatic incidents in the meeting of the lepers yesterday afternoon, in front of the Superintendent's house, in the village of Kalaupapa, at which the members of the legislative committee were listening to the petitions and protests of the lepers.

One was when a woman, plainly showing the ravages of the dread disease, in her drawn face, and her wasted hands and feet, with simple, but

BOLD SCHEME OF JAPS

WILL SEND ISLAND LABORERS BY KOREA TO TRANS-SHIP AT FRISCO FOR VANCOUVER.

Japanese hotel-keepers have hatched a new scheme for frustrating the immigration laws regarding the movement of Japanese immigrants from Hawaii to the mainland of the United States. The scheme is a bold one, but as there is said to be at least \$3,000 and possibly more money to be made, the hotel men are naturally desirous of putting the scheme through.

It is understood that they are negotiating to secure transportation for 300 Japanese on the S. S. Korea to San Francisco this week. Whether such transportation has been granted them by the local agents can not be stated at present, but some of the hotelkeepers are representing that they have secured this transportation. It is not intended to attempt to land the Japanese

real to some coasting vessel and then be taken to Vancouver. The idea of course is that the Japanese will ultimately make their way across the border into the United States. The steamer rate that is named is \$40, but the hotelkeepers are charging \$52, the extra \$12 being a commission.

The new dodge has caused a great deal of discussion among the Japanese. But comparatively little is known of
